MEMORANDUM FOR: Denis Clift, NSC Staff

SUBJECT : Study of North European Policy
Toward Southern Europe

1. As I promised you Monday, I attach an advance copy of the CIA roundup on North European policies and activities regarding Southern Europe.

2. It divides into an overview section followed by separate annexes treating Portugal, Spain, Italy, Greece, and Turkey.

3. It is fairly lengthy and detailed, deliberately so since it is meant to bring together in some cogent organization a lot of information heretofore scattered around.

We're getting there. Hang in! This promises to be interesting and, I would think, a useful contribution for various purposes.

I offer a few textual suggestions, mostly designed to make it read more crisply.
